CAPABILITY STATEMENT

About Us

Reitech Services is an Australian-owned company delivering top-tier turnkey solutions to the resources, energy, gas, civil, and infrastructure sectors ensuring high-quality project delivery across Australia.

Based in Moranbah at the heart of the Bowen Basin, with engineering and fabrication facilities in Brisbane, Mackay, and Townsville, we boast exceptional capability and responsiveness.

With a robust national supply chain and freight network, we offer enhanced inventory management and control, minimising risk and downtime for our clients by ensuring timely access to parts and components.

Committed to excellence, we adhere to the highest compliance standards, delivering projects safely, on time, and within budget. Our industry-leading systems and processes, developed following ISO standards, along with cutting-edge ERP and operational systems, ensure seamless project execution.

Choose Reitech Services for reliable, compliant, and efficient project delivery across Australia.

Our Values

Safety

Safety will not be compromised; our aim is that everyone goes home safely.

Accountability

Each of us is accountable for our words, our actions, and our results.

Integrity

Act with uncompromising honesty and integrity in everything we do.

Teamwork

By listening and evolving together; a common goal is easier reached together.

Respect

Respect the locations in which we operate, the people who we deal with, and the environment we impact.

Our Team

Our team is the heartbeat of Reitech Services, driving our success and shaping our future. We are more than just a company - we are a community dedicated to nurturing and empowering our people. At Reitech, we believe in investing in our team and providing ample opportunities for growth and development within our organisation.

Every member of our team is a vital part of our mission, committed to serving the needs of our clients with unwavering dedication and passion. Guided by our core values, integrity, and a relentless pursuit of excellence, we approach every engagement with a sense of purpose and determination.

We understand that our people are our greatest asset, and we strive to create an environment where they can thrive, grow, and achieve their full potential. Through ongoing training, mentorship, and support, we empower our team members to reach new heights of success and fulfillment in their careers.

Our Culture

Reitech is dedicated to fostering a workplace culture centered around safety excellence. Our objective is to cultivate an environment where safety is paramount, and every team member feels empowered to prioritize safety above all else.

We are committed to providing comprehensive safety training and resources to all employees, ensuring they are equipped with the knowledge and tools to identify and address safety concerns proactively. Safety is ingrained in every aspect of our operations, from planning and execution to daily tasks and emergency response protocols.

At Reitech Services, safety is never compromised. We believe that everyone has the right to return home safely at the end of each day, and we continuously strive to uphold the highest standards of safety performance across all our projects and operations.

Our Vision

Our vision is to be, and be known as, the most dependable service company for the resources, energy, and infrastructure industries in the delivery of end-to-end service solutions; including project delivery, operations, and maintenance services.

Our team defines our successes. Reitech Services is focused on developing our people and present opportunities for growth within our business. Each team member is dedicated to the needs of our clients and are guided by our values in every engagement we are involved with.

Our Quality

At Reitech Services, our aim is to deliver high-quality, professional, and ethical services to our clients. This commitment is deeply embedded in our core values and is reinforced by our meticulous processes, efficient systems, comprehensive training, and accomplished leadership. Our quality management system aligns with the rigorous standards of ISO 9001.

Our skilled team is well-versed and qualified in various areas, including but not limited to:

- Top-tier project management
- Specialised installation and commissioning
- Variation minimisation
- Robust safety, health, and environmental management systems
- Routine audit procedures
- Risk management
- Advanced progress reporting
- Strict adherence to all requisite codes and standards
- Best-in-class software systems
- Innovative research and development
- 3D computer-aided design and computational fluid dynamics analysis
- Enhanced procurement processes

Our Safety

At Reitech Services, our steadfast commitment to safety forms the bedrock of our organisational ethos. We prioritise the health, safety, and well-being of all stakeholders connected to our operations, be it our employees, contractors, or visitors to our diverse work sites. This commitment isn't just rhetoric; it's ingrained deeply within our operational framework.

In our pursuit of excellence, we strictly adhere to AS45001 and OHSAS 18001 safety standards, underscoring our dedication to fostering a secure work environment. We firmly believe in the imperative of compliance with these standards and consistently strive to surpass all pertinent environmental regulations and statutes.

In our relentless drive towards zero harm, we uphold a stringent environmental management system following the ISO 14001 standard.

By integrating safety into our core principles, we've not only bolstered our organisational culture but also enhanced the breadth and quality of our service offerings. Our proficient team is resolute in upholding an unparalleled safety standard while being cognisant of our environmental impact and project implications.

Environment Focus

We are deeply committed to minimising our environmental footprint in every aspect of our operations. We recognise the importance of environmental stewardship in ensuring the sustainability of our business and the planet for future generations. As a part of industries such as resources, energy, and infrastructure, which rely on the extraction and utilisation of natural resources, we understand the heightened responsibility we bear to minimise our environmental impact.

That's why we integrate environmental considerations into every step of our operations, from project planning to execution. Through innovative practices and sustainable solutions, we strive to reduce waste, conserve resources, and mitigate environmental risks associated with our work. By embracing our responsibility to protect the environment, we aim to contribute positively to the communities and ecosystems in which we operate while ensuring the long-term viability of our business.

Reitech Services

Labour Hire

Reitech Services is here to meet your workforce needs in the resources, energy, and infrastructure sectors. We have a skilled team of technicians ready to assist, including but not limited to:

- Mechanical
- Electrical
- Civil
- Machinery operators.

Our team is equipped with the expertise and experience needed to excel in their fields. Whether you need support with project planning, execution, or ongoing maintenance, we have the talent and resources required.

We understand the importance of having a skilled workforce, which is why we prioritise recruiting and retaining top talent through ongoing training and skill acquisition. When you partner with Reitech Services, you can trust that you're working with professionals who are committed to delivering exceptional results.

Reitech Services

Project Management

Reitech Services brings a wealth of expertise and industry knowledge to the resources, energy, and infrastructure sectors. Our track record includes successful collaborations with renowned clients such as BHP Billiton/BMA, Anglo American, Fitzroy Resources, and South32, where we have consistently delivered outstanding projects.

Recognising the unique needs of each client and project, we tailor our approach to ensure optimal outcomes. Drawing on our extensive experience, we meticulously craft project management plans that anticipate and address potential challenges before they arise, setting the stage for smooth execution from start to finish.

We uphold the values of accountability and integrity in all that we do. We prioritise transparent communication with our clients, fostering an open channel of dialogue throughout the project lifecycle to ensure alignment and satisfaction.

Our project capabilities span the spectrum, from single crew assignments to multifaceted, large-scale project packages. With a commitment to delivering end-to-end turn-key solutions, we stand ready to tackle projects of any size or complexity.

Reitech Services

Maintenance

Reitech provides extensive asset lifecycle services, covering every phase from commissioning to operations and maintenance. Our capabilities include:

- **Factory Acceptance Testing:** Ensuring your equipment meets all specifications before leaving the factory.
- **Site Commissioning:** Seamlessly integrating and validating systems on-site.
- **Ongoing Support:** Providing continuous support throughout the project lifecycle.

With a team of experienced technicians specialising in construction, mechanical, electrical, and instrumentation services, we ensure round-the-clock on-site operations across Australia. Our expertise extends to:

- **Washplant Maintenance:** Keeping your washplant equipment in optimal condition through regular servicing and repairs.
- **Equipment Overhaul Services:** Comprehensive overhauls to extend the life and efficiency of your equipment.
- **Service and Repair:** Prompt and efficient repair services to minimise downtime.
- **Preventative Maintenance:** Routine checks and services to prevent equipment failures and ensure smooth operations.

Reitech Services

Supply Chain

Leveraging a robust supply chain, Reitech Services offers dependable sourcing of pipes, fittings, and components for our clients' projects and inventory requirements. Our collaborative approach enables us to develop strategic plans to ensure timely availability of products, streamlining the supply chain and mitigating the impact of downtime or insufficient parts.

By working closely with our clients, we proactively anticipate their needs and implement efficient procurement strategies to optimise project timelines and minimize disruptions. At Reitech Services, we are committed to delivering seamless supply chain solutions that drive operational efficiency and project success.

Fabrication

Reitech Services offers high-quality fabrication services through our state-of-the-art workshops located in Brisbane, Townsville, and Mackay. Our highly skilled team utilises cutting-edge welding and fabrication technology to deliver superior results.

Equipped with the latest tools and techniques, our certified staff can fulfill a wide range of client requirements, from single spools and basic isometric drawings to intricate turnkey solutions and comprehensive plant drawings. We ensure the highest quality standards by sourcing parts from reputable suppliers, all backed by full manufacturer warranties.

We are dedicated to providing reliable and efficient fabrication solutions that meet the diverse needs of our clients, setting the foundation for successful project outcomes.

Reitech Services

Support Equipment & Specialised Lines

Reitech maintains strong partnerships with leading suppliers of support equipment, encompassing pumps, power generation, specialty transport, filtering, and fire equipment. Leveraging these relationships, we excel in developing tailored solutions to address complex system requirements for our clients.

By tapping into our extensive network of trusted suppliers, we ensure access to high-quality equipment and resources essential for project success. Our collaborative approach allows us to integrate cutting-edge technology and innovative solutions, delivering optimal outcomes for our clients across diverse industries.

Civil Construction

Collaborating with both in-house experts and trusted subcontractors to provide comprehensive support for all your civil construction requirements. From labor supply to design, project management, and installation, we offer tailored solutions to align with your specific needs and project goals.

With a flexible approach and a commitment to excellence, we ensure seamless coordination throughout every phase of the construction process. Whether you require labor support, project management expertise, or end-to-end solutions, Reitech has the capabilities and resources to deliver results that exceed expectations.

Reitech Specialty Services

Gas Management

At Reitech Services, we excel in providing comprehensive solutions for the design, implementation, and optimisation of gas drainage systems, specifically crafted to address the unique challenges encountered in underground mining operations. Our holistic approach covers every aspect of gas management, from strategic planning and borehole drilling to gas capture and utilisation.

With a focus on efficiency and safety, our end-to-end services ensure the effective management of gas-related risks throughout the mining process. By leveraging state-of-the-art technologies and advanced monitoring systems, our team is equipped to identify and mitigate potential hazards, thereby enhancing overall operational safety and productivity.

We recognise the paramount importance of robust gas drainage systems in fostering a secure and conducive working environment underground. Through our expertise and dedication to excellence, we strive to deliver tailored solutions that not only meet but exceed the stringent requirements of our clients, ensuring optimal performance and peace of mind.

Clients and Community

At Reitech Services, our journey is not merely about delivering projects; it's about fostering enduring relationships within our community. We extend our deepest gratitude to our clients and the communities we serve for their trust, collaboration, and support.

Together, we've navigated challenges, celebrated successes, and built a stronger, safer future. As we continue on this path, we remain committed to delivering excellence, innovation, and unwavering dedication to our shared goals.

We would like to thank our clients, past projects, and dedicated community for being an integral part of our story.
